EDUCATIONAL OBJECTIVES

At the conclusion of this CME activity, the learner will be able to: describe the latest methods of cardiopulmonary bypass; discuss the latest controversies in cardiac and vascular surgery; identify new methods and techniques in intraoperative monitoring and perioperative strategies for organ protection involved in cardiac and vascular surgery.

ACCREDITATION

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada. This program is currently being reviewed for approval by Continuing Medical Education, Schulich School of Medicine and Dentistry, The University of Western Ontario.

American Board of Cardiovascular Perfusion (ABCP) accreditation is pending for this meeting.

The Canadian Society of Clinical Perfusion (C.E. Credits) accreditation is pending for this meeting.

CALL FOR ABSTRACTS

Abstracts are invited on clinical case reports or new research in adults, children, neonates, and animal models involving:

- Cardiac Surgical Robotics
- Organ protection during CPB
- Monitoring during surgery/CPB
- Developments in CPB apparatus
- Risk management factors for cardiopulmonary bypass
- Techniques for Hypothermic Circulatory Arrest
- Advances in surgical techniques/technologies
- Postoperative management

RESIDENTS/FELLOWS COMPETITION

If you are currently registered as a Resident or Fellow and wish to participate in R/F competition: 1) upload your abstract via our website, 2) send email request (marigo.portokalis@lhsc.on.ca) indicating paper that is to be presented at Resident/Fellows competition, 3) deadline is January 11th, 2010.

Papers will be presented in DISCUSSION format with slides.
